Joseph Stacy Murdock

were baptized into the Church. He was killed in a coal mine accident 17 October 1861 and was buried in St. Andrews Church yard in the town of Kilmarnock, Ayrshire, Scotland.

On the 16th of April, 1862, a letter came to us to be in Liverpool in three days. The letter came on Thursday, and on Saturday sailing ship was John J. Boyd. We landed in New York 4 June 1862, and then on to Hannibal and St. Joseph, Mo. It took ten days to reach Florence, Neb. We left there 22 July 1862 on the 1,000-mile trip West. Some had violins, accordions, concertinas, so we were happy in our venture. Mother brought father's violin.

We came right on to Heber, arriving Friday, 21 September 1862. George Muir, married to mother's cousin, met us in Silver Creek and invited us to his home, but mother learned of a house for sale, so she bought it, paid for it in cloth she had brought with her. The house had a lumber roof, unlike most of the dirt roofed houses of the times.

On Monday the 23rd, I went to work for George Carlile for $100 a year, to be paid in grain at $2 a bushel. I was awkward at cutting grain with an old cradle, but was willing to learn.

Long hard years followed, hauling wood, coal and rock all by ox team. I hauled rock from Cottonwood Canyon to Salt Lake for the Temple.

Robert Lindsay and Sarah Ann Murdock, William Lindsay and Mary Mair, decided to get married 12 Dec. 1868. We started to Salt Lake with two yoke of oxen on a wagon. Mother and Ann Richardson and three children went along. It was sure slow going. We camped at Parleys Park the first night and at N. C. Murdock's and Esther's home the next night. On the 14th we went to the Endowment House, but there was such a crowd before us, we had to wait until the next day, so we had our pictures taken. We found two more couples from Heber for the same purpose—Joseph Moulton and Lizzie Giles, Albert McMillen and Nancy Jane Ross. Daniel H. Wells married us. We bought 100 pounds of flour for $10, two chairs and a rocker, one gallon of molasses and a brass kettle to take home. That night we slept at John Muirs. All slept on the floor. Mother along with the rest. The next day William and Mary went to Heber. We stayed in Salt Lake City for a few days. We four lived in my house that winter, ate at the same table and paid our share of the food bill. I helped William build his log cabin in Heber.

In 1876 I was admitted as a citizen of the d to Lake William We each illiam and I worked together for a good many years, sharing equally. The boys were now getting old enough to help as we decided to split the homestead. I took the eastern portion and built me a two-room log cabin and moved into it. Our walks and steps were of sandstones, the quarry was not far from our home, and I worked there, getting rock out for houses and churches. My good wife often had to shear the sheep, washed the wool, picked it and spun it into yarn, then wove it into cloth to make the family clothes. She even made a suit for me—the one I wore to be married. She and the children whitewashed her walls and steps, with clay from the pit found on Uncle William's place, and she kept it always nice and clean. The children had a nice bedroom in the attic, which was reached by going up some steps nailed on the wall. There were straw filled ticks all over the floor and the children were just as happy as could be.

In 1887 Robert Lindsay was called on a mission to Australia. He went west by way of the Hawaiian Islands and returned from the east, making a complete circle of the world. Three converts by the name of Meyers, came back with him.

His wife Sarah Ann had worked exceptionally hard with the help of all of the children while he was away. After he returned from Australia the boys left home, seeking work and he worked hard to keep things going with his large family.

He kept faithfully at his work in the church, serving on the high council of the stake and often walking the entire distance to Wallsburg and return to make his visits. Sometimes he took the short cut up over the hill from Daniels Creek to save time.

On July 19, 1911, he was stacking hay. A load on the fork was over him on the stack when the derrick pole broke, the load struck him crushing his ribs. This occurred about
